

REMARKS

The specification has been amended to include the text from the figures.

The figures have been amended to comply with the requirements of 37 C.F.R. § 1.84 and 37 C.F.R. § 1.121. Each figure is now labeled "Fig." with a consecutive Arabic numeral and capital letter where necessary.

Applicants have also deleted the descriptive text from the figures. As stated above, that descriptive text has been moved to the specification. Figures 5, 6, and 7 have been placed over more pages.

The replacement figures and amendments to the specification add no new matter.

Please grant any extensions of time required to enter this Preliminary Amendment and charge any additional required fees to Deposit Account No. 06-0916.

Respectfully submitted,
